

P.G. Chambers School presents

Classroom Management:

A Multisensory Approach using Universal Design for Learning

DATE: Tuesday, April 19, 2016
TIME: 5:00 pm – 7:30 pm
PLACE: P.G. Chambers School
15 Halko Drive
Cedar Knolls, NJ 07927
FEE: \$20, includes a light dinner

Join us for a practical workshop on designing classrooms that facilitate productivity and engagement for students and staff. The workshop will help participants understand how different environments can support students' individual learning styles and challenges, including visual, auditory, sensory, and behavioral issues.

Workshop Objectives

Participants will:

- Identify the components of an accessible, multisensory classroom
- Recognize the factors that contribute to a positive classroom climate for students and staff
- Understand how to incorporate individual student supports, including basic behavioral supports and multisensory interventions into the classroom environment

Audience: Directors of Special Services; teachers and teacher assistants; social workers; psychologists; learning disability teachers/consultants; case managers; occupational, physical, and speech therapists

Presenters: P.G. Chambers School collaborative teaching team of special educators and related service providers
